NEW! CR50/60

HEAVY-DUTY FOUR POST DRIVE-ON LIFT

Robust design and user-friendly features provide the value you need in a heavy-duty drive-on lift.

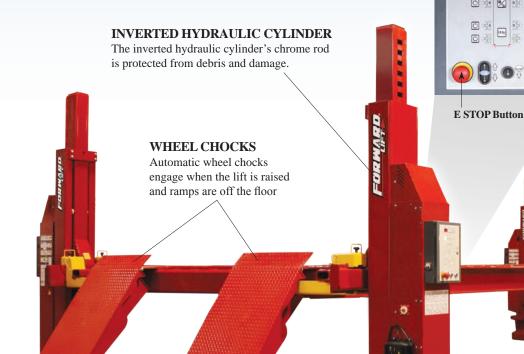

0 0 0

. 0

THIRD PARTY CERTIFIED

Our drive-on lifts meet the ANSI/ALI ALCTV 2011 standard, including the required third-party validation. Look for the gold ALI/ETL certified label.

PATENTED CONTROL SYSTEM - Operate lift from ANY post with this exclusive control system • Position memory - lifting cycles are configured and set - turn each

- column on, lock the columns and go • Programmable controls show operational status for each column
- plus, program a height limiter - maintains level within 3"
- Real time height reading
- · Battery Indicator
- E-Stop button located at each panel
- · Audible descent alarm

Accommodates wheelbases up to 33

LOW DRIVE-ON HEIGHT

Ramps and runways accomodate a variety of vehicle types. Optional drive thru ramp kit available.

ANCHORED COLUMN SUPPORT

Four easy to install wedge style anchors secure each heavy duty column to the floor

PRODUCTIVITY & PERFORMANCE

DESIGN FEATURES

- 28" wide runways with two available lengths and capacities handle a variety of vehicles from cars to the largest trucks
- Fully hydraulic, clear floor four-post design creates an open work area free of interference
- Industry best rise time of 65 seconds
- 78" lifting height benefits the tallest techs
- Locks in each column spaced every 3" (76mm)
- Standard internal airline connections let two rolling jacks operate simultaneously and provides outlets for air tools
- · No cables, chains or sheaves means fewer parts to maintain
- Surface mounted and anchored, with no required site preparation
- · Both model lengths are available in both lifting capacities

BATTERY OPERATED LIFT WITH ON-BOARD CHARGER

- · Generates faster lift cycle times
- · No special AC wiring costs or requirements
- Low electrical usage DC battery power* and 110V charging
- Fully functional when the power goes out
 - * Battery purchased separately for international use

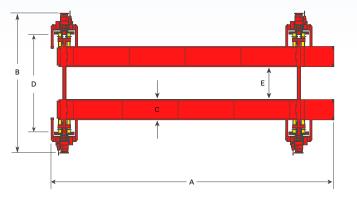

HORSESHOE WIRING

The CR50/60 is connected by three communication cables, (forming a horseshoe) protected within the lift runways.

α		IONS+

	Model:	CR50 / CR60
	Lifting Capacity	50,000 lbs. (22679kg) / 60,000 lbs. (27215kg)
	Maximum Wheelbase	28' (336"/ 8534mm) / 33' (396"/ 10058mm)
	Max. Rise - floor to runway top	78" (1981mm)
A.	Length Overall	35' 7-1/2" (10858mm) / 40' 7-1/2" (12382mm)
В.	Width Overall - outside controls	15' 9" (4800mm)
	Height of Columns	144 - 3/4" (3677mm)
C.	Width of Runways	28" (711mm)
D.	Drive Thru Between Columns	11'-10" (3607mm)
E.	Runway Spacing	45" (1143mm)
	Rise Time	65 seconds
	Ramp Angle	10 degrees
	Power Usage	Battery powered, charges on 110V

+BOTH 28' AND 33' RUNWAY LENGTH MODELS ARE AVAILABLE AS 50,000 AND 60,000 LBS. CAPACITY LIFTS

OPTIONAL ACCESSORIES

Help your technicians get vehicles up on the lift and back on the road faster and easier.

ROLLING JACKS

The optional 25,000 lbs. capacity rolling bridge can be attached to the runway to create various lifting options to make it even more versatile.

Shown: RJ2501000L

LED LIGHTING

High-efficiency LED lighting, single touch operation system provides hands-free lighting under the vehicle from the lift' control panel.

Shown: M140002

MOBILITY KIT

Optional wheel kit is available to provide portability for each column adding movement within your shop.

Shown: M140111

RAMP KIT

Adding a drive-thru ramp kit to lift runways creates a quick and easy on-off service operation for service bays.

Model # APRAMP10DTKIT (10' / 3048mm drive-thru ramp kit)

SHIM KIT

Not every shop floor is perfect. Using optional shims during installation ensures a lift is level and operates at optimum performance. (Call factory for details)
