bridge jacks (RJ15)

Engineering Excellence

Forward's U.S. engineers have over 29 years of combined experience designing automotive lifts for service and repair shops. Forward's philosophy is to own our designs rather than use someone else's off the shelf product.

Product Integrity

21st century design tools allow us to create, control and validate our designs to ensure maximum performance. Forward lifts are rigorously tested to meet quality and durability standards. All product families are proof load tested to 1½ times rated capacity and rigorously cycle tested.

**CR30-X is
Gold Certified**

Engineered to perform... Built to last!

**FORWARD
LIFT**

Forward CR30 30,000 lbs. capacity runway lifts

Single point latch release system releases all four column locks at the same time

Textured surface on runways and ramps

Multi-position lock components allow lift to be level at any lock position

Shown:
Model CR30-X
Capable of handling vehicles up to 30,000 lbs. with wheelbases up to 307"

Specifications	CR30/CR30-3		
Capacity	30,000 lbs.	Runway Height	8-3/8"
Maximum Wheelbase	271"/307"	Runway Width	24"
Lifting Height	68"	Width Between Runways	41" - 48"
Overall Length	28'-8-1/8"/31'-8-1/8"	Rise Time	105 seconds
Overall Width	12'-4-13/16"	Voltage Single Phase (optional 3-Phase available)	208/230
Overall Height	7'-3/4"	Motor	4 HP
Width Inside Columns	132"	Minimum Bay Size	16' X 33'
Length between Columns	285"/321"		

Optional Accessories

- Rolling Bridge Jacks for wheel free capabilities (RJ15, 15,000 lbs. capacity each)
- 30 gallon oil drain pan
- Drive through ramps

Specifications subject to change without notice or liability
